Passport-JWT Authentication Template | [GitHub](#)

- A full-stack web application template for quick installation of Passport-JWT user authentication utilizing Sequelize, Express, Node.js, and Bootstrap.
- Entirety of the template was built to be utilized in multiple application environments across platforms and environments.

EXPERIENCE

Director of B2B Depot Operations

2015-current

Jet City Device Repair

Seattle, WA

- Responsible for depot operations, including developing new onboarding processes for customers, inventory management, setting up best account management processes, and communication with our sales team.
- Key accomplishments for this is improving device throughput through both repair depots that fall under me. Increasing the number of repairs performed by roughly 30% while also decreasing warranty rates. Also increasing our retention rate for current and onboarding customers.

EDUCATION

University of Washington Full Stack Web Development Certificate Program

Seattle, WA

- 24-week MERN Full Stack program focusing on developing web development skills in JavaScript, Node.js, REACT, MySQL, and Express.js

The Florida State University

Tallahassee, FL

2007-2011

- Bachelors of Arts
 - Double Major in Chemistry and Environmental Studies
